

## homeTAO Cookies Policy

### What are cookies?

Cookies are small pieces of text that are transferred to your device when you visit a website or app. They essentially are a user's identification card that allow us to serve you better and more efficiently when you visit our Site. There are different types of cookies:

- First party cookies are cookies set by the website you're visiting. Only that website can read them. In addition, a website might potentially use external services, which also set their own cookies, known as third-party cookies.
- Session cookies are cookies that expire at the end of a browser session. Session cookies allow websites to recognize and link the actions of a user during a browsing session, unlike a persistent cookie, which are stored in a user's device in-between sessions.

### How homeTAO uses cookies

homeTAO only uses "first party cookies" to make our Site operational and allowing it to run smoothly and efficiently. Since we are only using technical cookies, being them strictly necessary for your authentication when visiting our Site and thus, avoiding you to re-enter your login information again and again when browsing around during the same session, we do not require your consent.

Cookie Name	Purpose	Expiration	More Information
JSESSIONID	To provide continuity and maintain your login from page to page.	First-party session cookie deleted after you quit your browser	If you disable this cookie, you will have to retype your username and password when browsing around our Site

### How can you manage cookies?

You can manage/delete cookies as you wish. For further detail see [www.aboutcookies.org](http://www.aboutcookies.org) or [www.allaboutcookies.org](http://www.allaboutcookies.org).

### Removing cookies from your device

You can delete all cookies that are already on your device by clearing the browsing history of your browser. This will remove all cookies from all websites

you have visited.

Please note, however, that if you delete cookies you may lose some saved information (e.g. saved login details, site preferences).

## Managing site-specific cookies

For more detailed control over site-specific cookies, check the privacy and cookie settings in your preferred browser. If you would like to change the configuration of cookies on your browser, you can do so by reconfiguring the browser options. If you choose to disable all cookies, you may find that the use of some features may be restricted. You can find information on how to change the cookie policies of various browsers as follows:

- Configuration of Internet Explorer cookies [\(link\)](#)
- Configuration of Firefox cookies [\(link\)](#)
- Configuration of Google Chrome cookies [\(link\)](#)
- Configuration of Safari cookies [\(link\)](#)

## Blocking cookies

You can set browsers to prevent any cookies being placed on your device, but you may then have to manually adjust some preferences every time you visit a site and some services and functionalities may not work properly at all.

## Banner:

We only use first party cookies with technical purposes that are strictly necessary for the Site to function. Your data is not shared nor disclosed to any third party. For further information, please refer to our Cookie Policy.
